Fellow Shareholders,

For the first six months of 2012 our Fund's net asset value (NAV) increased 6.5%, putting it behind our benchmark (S&P 500 total return) which had a 9.5% return.

In the first six months of 2012, we pared back a number of positions, including selling all of our Home Depot, Pfizer, General Electric, Guggenheim Enhanced Equity Strategy Fund and Federated Investors positions. At attractive prices, we felt that the risk involved with holding them was too high versus the potential return. As share prices rose early in 2012, our margin of safety, in continuing to own these securities, substantially declined. So, we sold and took cash.

Interest Rates

Low interest rates continue to affect the stock market. The US Federal Reserve ("Fed") continues to hold interest rates low to promote economic growth. Low interest rates encourage economic growth in the short-term, providing businesses and families with low-cost loans. The Fed effectively subsidizes the cost to borrow money. However, these low interest rates are only offered on a temporary basis while the Fed subsidizes.

The current interest rate for a 10-year Treasury is approximately 1.5%, much lower than its historic yield. (In fact, with inflation running at 1.7%, the real return is negative!) The temporary nature of the current rate is very important. When rates rise, borrowing costs will rise, possibly quickly.

With some frequency, companies take on too much short-term debt at temporarily low market interest rates, and then suffer from higher costs as rates rise. No one can predict how soon (or how high) interest rates may rise, and, inevitably, problems with this strategy develop. Loans look good at 1.5% but are going to be a lot less attractive as rates return to 5%, 6% or more. Many companies take on debt that they are unable to pay off. When that debt is due, they have to replace it with a new debt, prevailing interest rates. With current interest rates at record lows, the safe bet is that future loans will be more costly than current ones.

We avoid the risk noted above by primarily investing in companies with low debt levels. As a result, we don't worry about higher interest rates. Indeed, a number of portfolio companies will actually benefit from higher rates. Automatic Data Processing, Paychex, and Berkshire Hathaway will each make more money from their float as interest rates return to historic norms.

We love hearing from our shareholders, subject to our established ground rules. We can't (and won't) discuss any security that we've bought or sold but haven't yet publicly disclosed, nor any security that we're thinking about buying or selling. Subject to that broad limitation, we're happy to entertain any appropriate question or comment.

Notes to Financial Statements

(1) Organization.

Eagle Capital Growth Fund, Inc., a Maryland corporation (“Fund”), is a diversified closed-end investment company subject to the Investment Company Act of 1940.

(2) Significant Accounting Policies.

The following is a summary of the significant accounting policies followed by the Fund not otherwise set forth in the Notes to the Financial Statements:

Dividends and distributions—Dividends from the Fund’s net investment income and realized net long- and short-term capital gains will be declared and distributed at least annually.

Investments—Investments in equity securities are stated at market value, which is determined based on quoted market prices or dealer quotes. If no such price is available on the valuation date, the Board of Directors has determined that the most recent market price be used. The Fund uses the amortized cost method to determine the carrying value of short-term debt obligations. Under this method, investment securities are valued for both financial reporting and Federal tax purposes at amortized cost, which approximates fair value. Any discount or premium is amortized from the date of acquisition to maturity. Investment security purchases and sales are accounted for on a trade date basis. Interest income is accrued on a daily basis while dividends are included in income on the ex-dividend date.

Use of estimates—The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Federal income taxes—The Fund intends to comply with the general qualification requirements of the Internal Revenue Code applicable to regulated investment companies such as the Fund. The Fund plans to distribute annually at least 90% of its taxable income, including net long-term capital gains, to its shareholders. In order to avoid imposition of the excise tax applicable to regulated investment companies, the Fund intends to declare as dividends in each calendar year an amount equal to at least 98% of its net investment income and 98% of its net realized capital gains (including undistributed amounts from previous years).

The following information is based upon the Federal income tax basis of portfolio investments as of June 30, 2012:

Gross unrealized appreciation	\$ 5,512,192
Gross unrealized depreciation	<u>(403,482)</u>
Net unrealized appreciation	\$ 5,108,710
Federal income tax basis	\$13,479,658

Expenses—The Fund’s service providers bear all of their expenses in connection with the performance of their services. The Fund bears all of its expenses incurred in connection with its operations including, but not limited to, investment advisory fees (as discussed in Note 3), legal and audit fees, taxes, insurance, shareholder reporting and other related costs. As noted in Note 3, the Fund’s investment advisor, as part of its responsibilities under the Investment Advisory Agreement, is required to provide certain internal administrative services to the Fund at such investment advisor’s expense. The Investment Advisory Agreement provides that the Fund may not incur annual aggregate expenses in excess of two percent (2%) of the first \$10 million of the Fund’s average net assets, one and a half percent (1.5%) of the next \$20 million of the average net assets, and one percent (1%) of the remaining average net assets for any fiscal year. Any excess expenses are the responsibility of the investment advisor.

Fair Value Accounting—Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provides a framework for establishing that fair value. The framework for

determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

In general, fair values determined by Level 1 inputs use quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access. All of the Fund's investments are classified as Level 1.

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

(3) Certain Service Providers Arrangements

Investment advisor—For its services under the Investment Advisory Agreement, the investment advisor receives a monthly fee calculated at an annual rate of three-quarters of one percent (0.75%) of the weekly net asset value of the Fund, as long as the weekly net asset value is at least \$3.8 million. The investment advisor is not entitled to any compensation for any week in which the average weekly net asset value falls below \$3.8 million. Pursuant to the Investment Advisory Agreement, the investment advisor is required to provide certain internal administrative services to the Fund at the investment advisor's expense.

Effective June 1, 2007, following shareholder approval of the Investment Advisory Agreement, Sims Capital Management LLC ("SCM") began serving as the Fund's investment advisor. Pursuant to the Investment Advisory Agreement, SCM is responsible for the management of the Fund's portfolio, subject to oversight by the Fund's Board of Directors. SCM is 50% owned by Luke E. Sims, the President, CEO and a Director of the Fund, as well as an owner of more than five percent of the Fund's outstanding shares. David C. Sims, the Fund's Chief Financial Officer, Chief Compliance Officer and Secretary owns the remaining 50% of SCM.

Custodian—Bank of America Corporation serves as the Fund's custodian pursuant to a custodian agreement. As the Fund's custodian, Bank of America receives fees and compensation of expenses for services provided including, but not limited to, a monthly account fee.

Transfer Agent—American Stock Transfer & Trust Company ("AST") serves as the Fund's transfer agent and dividend disbursing agent pursuant to custody agreements. AST receives fees for services provided including, but not limited to, account maintenance fees, activity and transaction processing fees and reimbursement for its out-of-pocket expenses. AST also acts as the agent under the Fund's Dividend Reinvestment and Cash Purchase Plan.

(4) Dividend Reinvestment and Cash Purchase Plan.

The Fund has a Dividend Reinvestment and Cash Purchase Plan ("Plan" or "DRIP") which allows shareholders to reinvest cash dividends and make cash contributions. Pursuant to the terms of the DRIP, cash dividends may be used by the DRIP agent to either purchase shares from the Fund or in the open market, depending on the most favorable pricing available to DRIP participants. Voluntary cash contributions from DRIP participants are used to purchase Fund shares in the open market. A complete copy of the DRIP is available on the Fund's website (www.eaglecapitalgrowthfund.com) or from AST, the DRIP agent.

(5) Distributions to Shareholders.

No distributions to shareholders were made in the first half of 2012.

(6) Fund Investment Transactions

Purchases and sales of securities, other than short-term securities, for the six-month period ended June 30, 2012, were \$6,030,754 and \$2,233,509, respectively.

(7) Financial Highlights.

The Financial Highlights present a per share analysis of how the Fund's net asset value has changed during the periods presented. Additional quantitative measures expressed in ratio form analyze important relationships between certain items presented in the financial statements. The total investment return based on market value assumes that shareholders bought into the Fund at the bid price and sold out of the Fund at the bid price. In reality, shareholders buy into the Fund at the asked price and sell out of the Fund at the bid price. Therefore, actual returns may differ from the amounts shown.

2012 Annual Shareholder Meeting

The Fund's 2012 annual meeting of shareholders ("Annual Meeting") was held on April 19, 2012, for the following purposes:

1. To elect a Board of seven (7) Directors.
2. To ratify the selection of Plante & Moran, PLLC as the independent registered public accountants of the Fund for the calendar year ending December 31, 2012.

The following directors were elected under Proposal 1: Robert M. Bilkie, Jr., Phillip J. Hanrahan, Carl A. Holth, Peggy L. Schmeltz, Luke E. Sims, Donald G. Tyler, and Neal F. Zalenko. Under Proposal 2, shareholders ratified the selection of Plante & Moran, PLLC as the Fund's independent registered public accountants for the 2012 calendar year.

Approval of Renewal of Investment Advisory Agreement. At its December 5, 2011 Board meeting, the Board of Directors approved the renewal of the Fund's Investment Advisory Agreement with SCM (with Director Luke E. Sims abstaining). The Board determined that SCM's performance should be reviewed on an approximate five-year time horizon, and that it was too soon to use performance as a criterion, though the Board was pleased that the Fund's had outperformed the S&P 500 (total return) index during SCM's tenure as investment advisor. The Board reviewed other factors in determining to retain SCM as investment advisor including, among other things, the nature, extent and quality of services provided by SCM, the cost of services provided by SCM (and benefits to be realized by SCM as a result of its relationship with the Fund), the economies of scale that may be realized as the Fund grows, whether fee level reflects the economies of scale for the benefit of Fund investors, the investment philosophy of SCM, the Fund's portfolio turnover, best execution and trading costs, personnel considerations, resources available to SCM, SCM's ability to satisfy compliance obligations and other relevant factors. Overall, the Board remained satisfied with the nature, extent and quality of services provided by SCM.
